

2014

ANNUAL REPORT

Uniform Fiduciary Standards of Care

- Know Standard, laws, and trust provisions
- Diversify Assets to specific risk/return profile
- Prepare investment policy statement
- Use “prudent experts” (money managers) and document due diligence
- Control and account for investment expenses
- Monitor the activities of “prudent experts”
- Avoid conflicts of interest and prohibited transactions

2nd Senatorial Representative

MARIA (FRICA) T. PANGELINAN
Women's Representative

A Message from the Chairman

Dear People of the Commonwealth,

In compliance with Article XI, Section 6(e), of the Commonwealth Constitution, the Trustees of the Marianas Public Land Trust (MPLT) makes this report on MPLT's financial status and investments for the year 2014. MPLT's FY 2014 audited financial report is also included as part of this report.

The N.M.I Constitution provides that proceeds from public land leases, after reasonable expenses, are to be transferred from the Department of Public Lands (DPL) to MPLT. DPL made two transfers to MPLT in fiscal year 2014, \$307,109 on December 2013 and \$996,743 on June 2014. The Trustees continue to work with DPL regarding the schedule for transfer of funds as provided in the Constitution.

MPLT's current Principal Fund Balance as of this 2014 report is \$81,383,613. The attached report provides the detail on the distributions of the earned interest to the general revenues of the Commonwealth and to the American Memorial Park.

We trust this report provides useful information and an insight into the operation and investments of MPLT. The Trustees are held to strict fiduciary duties and responsibilities and continue to fulfill their duties diligently to comply with the mandate of the Constitution. For more information and/or for updates, please visit our website at www.mplt.gov.mp.

Respectfully submitted,

A handwritten signature in blue ink that reads "MB Ada". The signature is written in a cursive, flowing style.

Martin B. Ada
Chairman, MPLT

ANNUAL REPORT

For

FY 2014

OVERVIEW

The Marianas Public Land Trust (MPLT) was established by the Northern Marianas Constitution under Article XI, Section 6, for the purpose of making prudent investments of the revenue received from public lands leases that the Marianas Public Land Corporation (MPLC) or its successor entities, now the Department of Public Lands (DPL) transferred to MPLT, pursuant to Section 5(g) and Section 6(b) of the said Article XI (see figure 1). The original lease of public lands by MPLC funding MPLT was per Article VIII, Section 803 of the Covenant. MPLT invested these funds prudently within its established guidelines and policy.

FUNDS RECEIVED BY MPLT	
Date Received	Amount
July 19, 1983	\$5,000,000
January 20, 1984	100,000
February 17, 1984	14,080,046
April 13, 1984	5,958,700
August 27, 1984	803,856
May 22, 1991	500,000
December 20, 1991	500,000
September 19, 2007	1,250,000
August 4, 2008	3,500,000
November 23, 2011	1,000,000
December 31, 2013	307,109
June 6, 2014	<u>996,743</u>
Total:	<u>\$33,996,454</u>

For over 30 years, MPLT has transferred to the general revenues of the Commonwealth the amount of \$54,620,691, which the legislature appropriated for various public programs; such as, the Public School System, Department of Public Safety, Department of Public Works, Commonwealth Health Center (CHC), etc... And, over the last 23 years, MPLT has disbursed the amount of \$6,065,545 to the American Memorial Park, in accordance with Article XI, Section 6(d) of the Northern Mariana Islands Constitution for the maintenance and development of the American Memorial Park.

The Trustees acknowledge that public lands belong collectively to persons of Northern Marianas descent, (Article XI, Section 1 of the Northern Mariana Islands Constitution); therefore, MPLT is expected to provide the revenues derived from public lands for programs directly benefiting persons of Northern Marianas descent. However, Article XI, Section 6(b) and (d) of the Northern Mariana Islands Constitution mandate the Trustees to make reasonable, careful and prudent investments and the interest revenues therefrom to be transferred to the general revenues of the Commonwealth.

PERFORMANCE ANALYSIS

The Marianas Public Land Trust (MPLT) performance return of 6.99% for FY 2014 increased from last year's return of 6.21%. It complied with MPLT's blended policy targets of 6.78%, but did not meet the annualized policy index of 7.2%. In 2014, the Trust's net assets increased by \$3,710,975. This increase in the net assets for 2014 was due to a distribution received from the Department of Public Lands (DPL) of \$1,303,852 and the continuing trend of increasing fair value of investments.

A review of the Trust's annual returns for the last five years, as shown in the Analysis of Investment Returns (see Table 1) indicates an annualized average rate of return of 6.96% on the total portfolio for that five years period. By comparison, the five-year average for managed portfolio is 7.38% and when compared to the Weighted Average of Target Allocation of 6.78% for the same period, it shows that MPLT has been meeting the targeted return for the asset allocation in accordance with its Investment Policy Statement (IPS). This indicates that the Trustees are closely monitoring the performance of MPLT's money managers, and implementing a sound asset allocation strategy and policy.

The investment revenue (interest & dividends) for 2014 was \$1,836,349 as compared to \$2,938,305 for 2013. Likewise, the net capital gains for 2014 were

Annual rates of return take alone do not present an accurate picture of investment performance. Investment performance must be analyzed consecutively for a range of three to five years. This is because money managers do not try to time market fluctuations caused by short-term interest rate changes and other economic factors. Their goal is to analyze market cycles in order to be fully invested when markets are in an up-swing pattern. Trying to outguess the market in the short term will not yield continuous portfolio growth over the years. Instead added risk and volatility will mark performance negatively resulting in average yields below the historical trends.

\$3,545,746 as compared to a net capital gains for 2013 of \$2,148,795. This is indicative of the valuation recovery from the 2008 collapse, much of which occurred in 2012. While 2014 realized added valuation to investments and fund balance, the expectations for 2015 indicate that much of the recaptured growth from the 2008 collapse has been fulfilled and future value growth may be limited until a sustained trend of economic growth has been achieved.

MPLT's investment time horizon is long term, and while investment cycles of three to five years may reflect volatility, the Trustees anticipate being able to continue

adding value to the portfolio in accordance with their investment strategy, as well as to continue to provide reliable distributions to the general revenue of the Commonwealth.

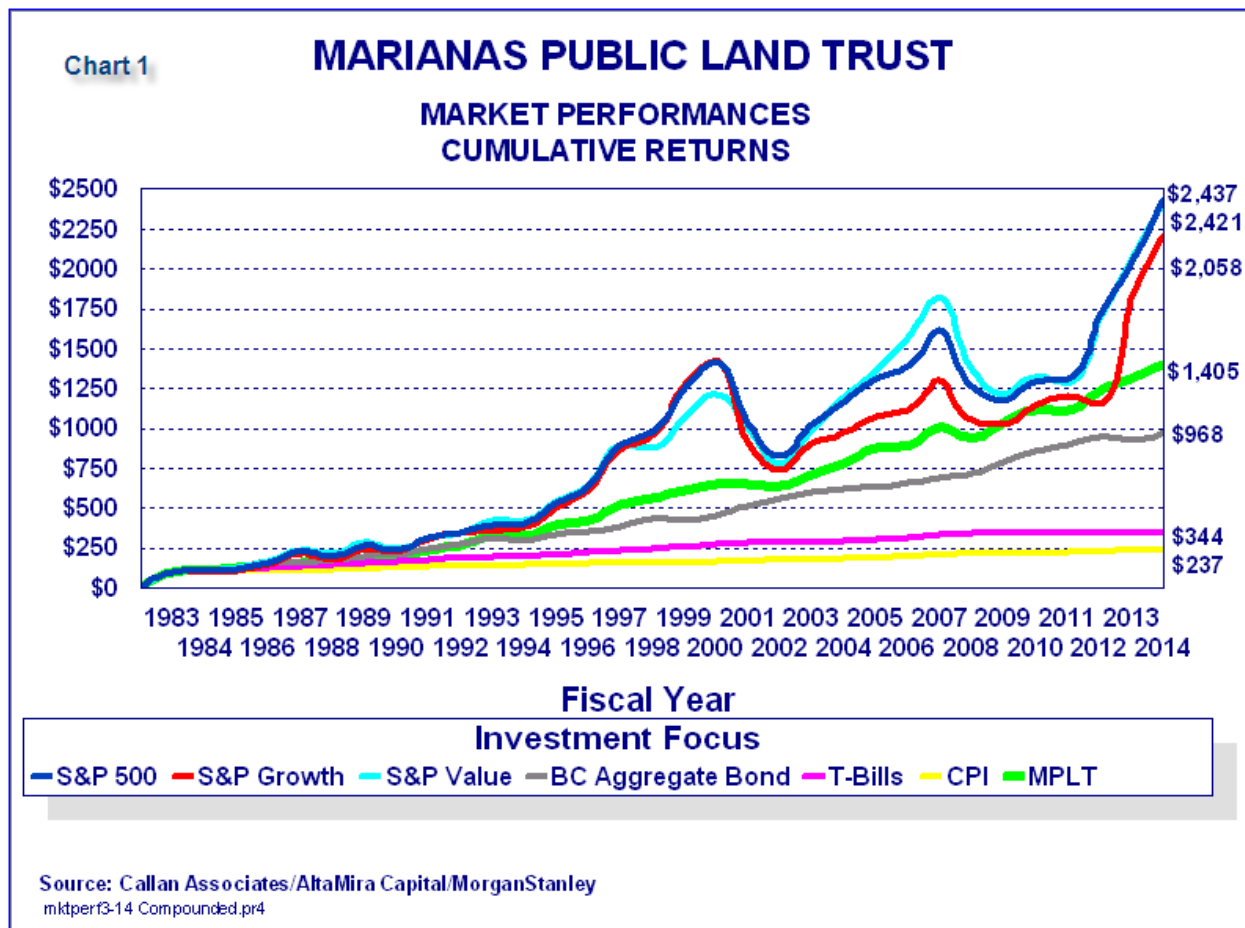

MARIANAS PUBLIC LAND TRUST ANALYSIS OF INVESTMENT RETURNS - Table 1

	2014	2013	2012	2011	2010	Five Year Average
Investment Returns	\$1,322,393	\$2,497,863	\$2,601,641	\$2,964,704	\$2,282,277	\$2,333,776
Dividends	513,954	440,304	345,696	328,810	376,702	401,093

A review of the Analysis of Investment Returns (table 1) for 2010 through 2014 realized and unrealized capital gains (losses) shows a total recovery of \$9,574,461. This amount plus the 2009 recovery of \$3,537,381 yields a total recovery of \$13,111,842 as compared

to the \$8,058,525 loss in 2008, when the World financial markets failed. The Trust has fully recovered from this debacle primarily due to its conservative asset allocation.

Another means to review MPLT’s historical return performance is to chart its annual rate of return since inception as compared to various indices. The Market Performances Cumulative Returns (chart 1) is an example of this type of analysis. It assumes an original investment of \$100 made in 1983 with the annual investment returns reinvested. MPLT’s annual rate of return is charted along with the annual returns for the following indices: a) **S&P 500 Index**, b) **S&P BARRA Growth Index**, c) **S&P BARRA Value Index**, d) **Barclay’s Aggregate Bond Index** e) **91-Day T-Bills Index**, and; f) **Consumers’ Price Index**

The Market Performance Cumulative Returns (chart 1) reveals that MPLT has performed very well since inception, earning a cumulative return to grow MPLT's original investment of \$100 to \$1,405, as compared to the S&P 500, S&P 500 Growth and S&P 500 Value, all of which grew to a range of \$2,058 to \$2,437

MPLT's principal fund, for both the General and Park, is currently \$76.5 million. This balance is 2.34 times more than the original principal contributions received from MPLC, etc. This principal growth has occurred while making cumulative distributions of \$59.7 million since inception.

(note the chart reveals the downward trend of equities for the 2001, 2002 and 2008). The fixed income benchmark, Barclays Aggregate Bond index, cumulatively grew to \$968. Based upon our targeted asset allocation of approximately 25% to equities, 65% to fixed-income, and 20% to alternatives (effective March 2014), we compare very favorably to the market performances. Since MPLT is obligated to transfer its interest income to the general revenue of the Commonwealth, it chooses to invest mostly in fixed-income instead of investing solely in equities

An overview of MPLT’s historical returns on investment since its inception, illustrated on the Comparison of Returns on Investment (see chart 2) shows the positive and negative rates of annual rate of return for each year. The average annual return rate for the years 1988 through 2014 was 7.62%, as compared to 1984 through 1987 and a portion of 1988, was 11.6%. This is indicative of the MPLT’s money managers performing to meet the 7.50% level expected in MPLT’s Investment Policy Statement. Also, professional money management has been able through the equity portfolio to add value and increase the principal fund since 1988.

MPLT has added \$46.3 million to the principal contributions received from MPLC and its successor entities for a 239% gain. This more than doubling of the principal fund has been accomplished during the last twenty-seven years. The Principal Fund Growth Curve (see chart 3) illustrates the increasing investment base derived from capital gains which are

allocable to principal and are not subject to distribution. The red portion of the chart represents the original principal contributions received from MPLC, or its successor entities, now DPL, while the blue portion is the value added (appreciation) to the portfolio, as a result of MPLT's investment strategy and policy. A further review of chart 3 reveals the dramatic loss of value occurring in years 1994, 2001, 2002, 2008, and 2011. It also demonstrates the recovery occurring in years 1995, 2003, 2005 through 2007, and 2012 through 2014. This is a testament of the investment policy and asset allocation to equities instituted by the Trustees and their investment consultants. Without an equity allocation, MPLT would not have been able to achieve this growth. It also shows that by reducing the equity allocation in favor of current income, MPLT will not be able to sustain this rate of growth as capital gains as a portion of the total revenues will be less.

There are trade-offs between capital appreciation and investment earnings. The Annual Gross Investment Earnings (chart 4) indicates when MPLT started to enjoy larger annual rates of return and increased capital growth, MPLT investment earnings declined. This is to be expected, and to properly analyze performance, all the components of annual return must be considered (investment earnings, i.e., interest and dividends, as well as

realized capital gains (losses) and investment appreciation).

Accordingly, the Comparison of Annual Investment Returns to Beneficiary Distribution (chart 5) illustrates the total annual investment receipts as compared to the annual distributions to the beneficiaries, CNMI General Fund and American Memorial Park.

In order to achieve high rates of return and meet the “*uniform prudent investor*” standards, the Trustees through their investment consultant, retains money managers, who are experts in their fields of investment focus for the following asset classes: **Large Cap Value, Large Cap Core, Emerging Markets, High Yield Fixed Income, International Fixed Income, Alternatives, and Core Fixed Income.**

MONEY MANAGERS

To illustrate the value and necessity of professional money management as compared to managing the money ourselves, as we did from 1983 until 1988, a graph of the rates of return has been prepared showing the returns of investing solely in U. S. Securities (3 to 5 year U. S. Treasury bonds) compared to MPLT’s actual returns during the period of professional management (1988 through 2014). The Comparison of Professional Management Returns to U.S. Security Investment Returns (Chart 6) reveals that, except for 1989, 1990, 2001, 2002, 2008, and 2011, the yields returned by professional money managers have consistently outperformed those of our prior investment policy when we were limited to investing solely in U. S. Obligations. An average of the annual returns for each of these two options or approaches reveals that the professional money managers yielded 1.7 times more than an investment plan limited to U.S. Obligations solely.

MPLT pay its money managers annually from 25 to 55 basis points (100 basis points equals 1%) of the value of the monies they manage, the incremental annual gain is more than

justified. To do otherwise would be a breach of our fiduciary duty and would be contradictory to **modern portfolio theory**.

An analysis of the Historical Administrative Expenses, (chart 7) reveals an update of MPLT historical administrative expenses since inception. As you can see, the 2014 administrative expenses increased by \$76,000 as compared to the amount in 2013, which was due to increases in money management fees, salaries, and money management administration.

Another way of looking at the effectiveness of our investment policies is to compare our administrative expenses each year since inception to the total Trustees assets (using fair market valuation). The Comparison of Administrative Expenses as a Percentage of Assets (chart 8) illustrates the progression and growth of our administrative expenses (red line) over the years, which reached its highest level in 2003. Since then, administrative expenses have been trending down. The blue line of the chart depicts the annual administrative expenses as a percentage of MPLT's total assets. This percentage is expressed in basis points (100 bp equals 1%). This line shows the cost of running MPLT as compared to the growth of our investment program. It is the goal of the Trust to continue the trend of lowering the **rate of administrative expenses** over the coming years in relation to the asset level. Over the past thirty-two years, the Trust has spent

\$17,506,873 for administrative expenses to create \$47,623,273 new assets while at the same time distributing \$60,686,236 to the Commonwealth and the American Memorial Park.

INVESTMENT POLICY STATEMENT

The MPLT Trustees are *fiduciaries*. Their role is *to provide the essential management of the investment process, without which the other components of the investment plan cannot be defined, implemented or evaluated.*

The Trustees are responsible for the general management of MPLT's assets.

Their key tasks are:

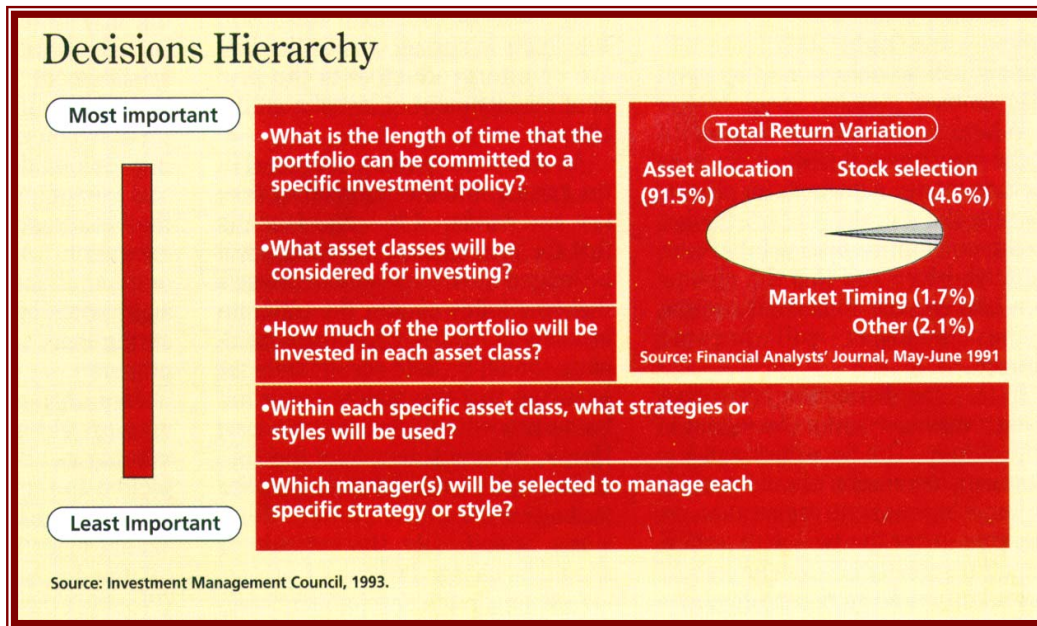

- a) Determining the portfolio's mission and objective;
- b) Choosing an appropriate asset allocation strategy;
- c) Establishing explicit written investment policies consistent with the objectives;
- d) Selecting investment managers to implement the investment policy; and
- e) Monitoring investment results

The investment program is defined in the various sections of the IPS by:

- Stating in a written document the Trustees' attitudes, expectations, objectives and guidelines for the investment of all MPLT assets.
- Setting forth an investment structure for managing all MPLT' assets. This structure includes various asset classes, investment management styles, asset allocation and acceptable ranges that, in total, are expected to produce a sufficient level of overall diversification and total investment return over the long-term.
- Providing guidelines for each investment portfolio that control the level of overall risk and liquidity assumed in that portfolio, so that all MPLT assets are managed in accordance with stated objectives.
- Encouraging effective communications between the Trustees, the investment consultant and the money managers.
- Establishing formalization criteria to monitor, evaluate, and compare the performance results achieved by the money managers on a regular basis.
- Complying with all applicable fiduciary, prudence and due diligence requirements that experienced investment professionals would utilize, and with all applicable laws, rules and regulations from various local, state, federal and international political entities that may impact trust assets.

To accomplish these key tasks, the Trustees worked with their professional staffs, attorney, and investment consultants to prepare an Investment Policy Statement (IPS). This helps the Trustees to effectively supervise, monitor, and evaluate MPLT's investment assets. The IPS was prepared based upon considerations by the Trustees of the financial implications of a wide range of policies and describes the prudent investment process which

the Trustees deem appropriate. Studies have been made of the factors or elements of the investment process which affect total return variation. Of these elements, the investment portfolio time horizon and the asset allocation are the most important and have the greatest effect on portfolio returns. The selection of money managers and their stock selections typically have the least impact on return variations. **The Decision's Hierarchy graphic illustrates this reality very well.**

Since 1988, the asset allocation strategy has changed from what can best be described as a “balance” investment focus. Since then, the asset allocation has been amended to replace and add new asset classes in order to increase income from such portfolio. MPLT 2013 Annual Report and prior years provides more detail information on such amendments.

This year (2014), the general fund convertible securities asset allocation of 10% was removed and the Diversified Local Investment decreased from 30% to 10% to increase domestic equities which were split into large cap value at 10% and large cap core at 10% and allocate 20% to alternative investments at 10% each to Master Limited Partnership (MLP) and Real Estate Investment Trust (REITS). These changes were also

INDUSTRY BEST PRACTICE

One of the most important decisions the fiduciary has to manage is the determination of the time horizon. Based on the time horizon, the fiduciary then can determine which asset classes can be appropriately considered; what the allocation should be between the selected asset classes; whether there should be an allocation made among sub-asset classes; and, finally, which money managers or mutual funds should be retained to manage each asset class.

applied to the American Memorial Park Fund.

The Historical Asset Investment Allocations (chart 9) illustrates MPLT’s asset allocation as reflected in the IPS as of September 30, 2014. It also shows how the value of the investments has improved since 2002 and its decline in 2010 due to the payment of the “recovered interest” to the CNMI general fund and the loss of value to the portfolio has continued for FY 2011 due to the poor performing equity market, in addition, the loss of MPLT’s investment on the Northern Marianas Housing Corporation (NMHC) on the housing project for person of Northern Marianas descent, and the APLE501, a parent-student scholarship program established on Rota in 2002. These two investments are classified as non-performing.

CHANGES IN PRINCIPAL FUND BALANCES

TOTAL	<u>\$72,382,895</u>	<u>\$9,000,717</u>

FINANCIAL BENEFITS

The financial benefits provided to the Commonwealth by the Trust consist of direct distribution of income and capital growth to its investment portfolio. The equity market for 2014 did not add value to the portfolio due to decreased equity valuations. The S&P 500 and Russell 1000 combined yielded .95% for the year but MPLT's return was a -1.46% of this yield on its large cap core equities. The emerging markets equities returned 4.20%, slightly below their MSCI Emerging Markets benchmark of 4.30%.

The domestic fixed income core and high yield provided a total return of 5.18% with the international fixed income providing a return of 6.41%.

The domestic local investment provided a total return of 5.35%

15. A&E for the Cultural/Visitors Center & Memorial Gardens	65,000
16. Tennis Courts – upgrades	375,711
17. Debt service on CDA/AMP loan for Cultural/Visitors Center & Memorial Gardens	<u>2,315,778</u>
Total:	\$ <u>6,065,545</u>
FIG: AMP-1	

The overall result being that the Trust added \$4,828,930 to its principal. MPLT's 2014 General Fund distribution was \$844,111, which yields a total of \$54,620,691 being given over to the Commonwealth General Fund since inception (see figure GF/AMP 2).

Also, the Park Fund made distributions of \$143,411 for the debt service on the Commonwealth Development Authority and American Memorial Park (CDA/AMP) loan. This makes a total of \$6,065,545, which has been distributed to fund projects at the American Memorial Park (see figure AMP-1).

**FY 2014 FINANCIAL SUMMARY
GENERAL FUND**

The Investment Policy Statement asset allocation for 2014 maintained a broad asset allocation of 25% to equities, 55% to fixed income, and 20% to alternatives. This approach maintains current income while keeping an option to grow the principal investment base. The current asset allocation is reflected in the General Fund Asset Investment Allocation (chart 11).

The overall asset investment base for 2014 was \$70,975,888, increasing by \$4,315,831 from the 2013 amount.

GENERAL FUND CURRENT ASSET ALLOCATION

Asset Allocation	Strategic Allocation	Total Fund	Percentage Difference
Domestic Equity – Large Cap Core and Large Value	20%	19.1%	-.9%
Non-U.S. Equities: Emerging Markets	5%	4.6%	-.4%
Domestic Fixed Income Core	30%	34%	4.0%
High Yield	5%	4.7%	-.3%

**FY 2014 FINANCIAL SUMMARY
AMERICAN MEMORIAL PARK**

The Investment Policy Statement asset allocation for 2014 is same as the General Fund. This allocation will provide sufficient income to support the increased debt service on the Commonwealth Development Authority (CDA) and American Memorial Park (AMP) loan. While this approach provides current income, it also enhances the option to grow the principal investment base. The current asset allocation is reflected in the Park Fund Asset Investment Allocation (chart 13).

The overall asset investment base for 2014 was \$8,924,172 resulting in an increase of \$424,947 from the 2013 amount.

AMERICAN MEMORIAL PARK CURRENT ASSET ALLOCATIONS

Asset Allocation	Strategic Allocation	Total Fund	Percentage Difference
Domestic Equity – Large Cap Core	20%	20.5%	.5%
Non-U.S. Equities: Emerging Markets	5%	4.9%	-.1%
Domestic Fixed Income			
Core & Local Loans	30%	31.3%	1.3%
High Yield	5%	5.1%	0.1%
DLI	10%	8.3%	-1.8%
International Bonds	10%	9.5%	-0.7%
Alternatives	20%	20.4%	.4%
Total Allocation	100%	100%	0%

Park Fund's Investment Return

FIDUCIARY DUTY and PRUDENT PROCESS

The Northern Mariana Islands Constitution requires the Trustees to “...***make reasonable, careful and prudent investments***” and holds them to “...***strict standards of fiduciary care***”.

PRIMARY DUTY of the FIDUCIARY

To *manage* a prudent investment process, without which the components of an investment plan cannot be defined, implemented, or evaluated. Statutes, case law, and regulatory opinion letters dealing with investment fiduciary responsibility further reinforce this important concept.

In adhering to such practices, the Trustees works with their key staff, professional consultants and attorney in the exercise of their fiduciary responsibilities. As a fiduciary, the Trustees have personal liability for their acts if they do not meet the concepts of the ***Prudent Process***.

Fiduciary liability is not determined by investment performance, but rather by the failure to apply “***prudent investment practices***”.

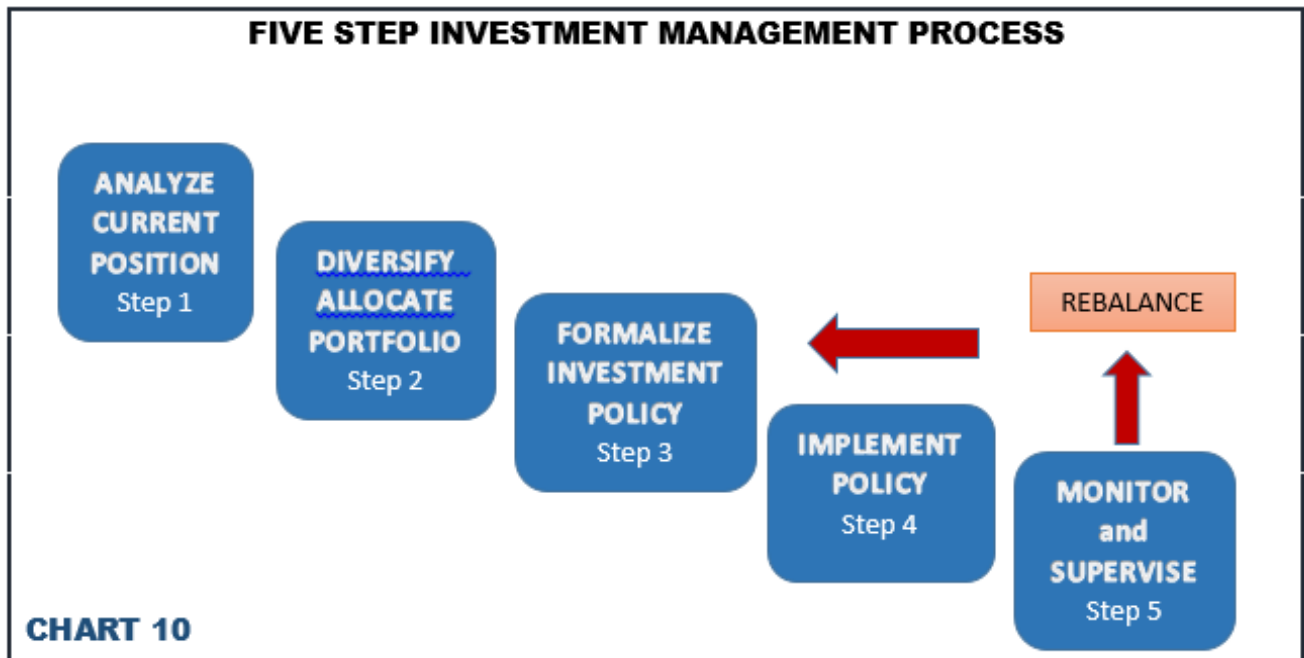

The Trustees, through their fiduciary studies and trainings of the application of

these ***Practices*** helps them to manage and make prudent investment decisions for the Trust.

The ***Prudent Process*** is described through the ***Five Step Investment Management Process*** as shown in Chart 10. The ***Uniform Fiduciary Standards of Care*** are legislated standards that when applied with the Five Step Investment Management Process frames the ***Prudent Investment Process***.

Safe Harbor Rules

1. Use prudent experts to make the Investment decisions.
2. Demonstrate that the prudent expert was selected by following a due diligence process.
3. Give the prudent expert discretion over the assets.
4. Have the prudent expert acknowledge their co-fiduciary status.
5. Monitor the activities of the prudent expert to ensure that the expert is performing the agreed upon tasks.

A further discussion of the *Practices* is as follows:

Step 1 - Analyze Current Position

Investments are managed in accordance with applicable laws, trust documents, and written policy statements.

- Fiduciaries are aware of their duties and responsibilities.
- Fiduciaries and parties in interest are not involved in self-dealing.
- Service agreements and contracts are in writing, and do not contain provisions that conflict with fiduciary standards of care.
- There is documentation to show timing and distribution of cash flows and the payment of liabilities.
- Assets are within the jurisdiction of U.S. courts, and are protected from theft and embezzlement.

INDUSTRY BEST PRACTICE

The following documents, at a minimum, should be collected, reviewed, and analyzed:

- A copy of the Investment Policy Statement (IPS), written
- Meeting minutes, and/or files from investment committee meetings.
- Applicable trust documents.
- Custodial and brokerage agreements.
- Service agreements with investment management vendors.
- Information on retained money managers; specifically the ADV for each separate account manager and prospectus for each mutual fund.
- Investment performance reports from money managers, custodian, and/or consultant.

Step 2 – Diversity - Allocate Portfolio

- A risk level has been identified.
- An expected, modeled return to meet investment objectives has been identified.
- An investment time horizon has been identified.
- Selected asset classes are consistent with the identified risk, return, and time horizon.
- The number of asset classes is consistent with portfolio size.

INDUSTRY BEST PRACTICE

If a fiduciary even thinks he or she may have a conflict of interest – they probably do. The best advice is end it, or avoid it. It's that simple. An excellent question every fiduciary should ask before deciding or voting on an investment issue is: ***Who benefits from this decision?*** If the answer is any party other than the client, participant, and/or the beneficiary, the likelihood is the fiduciary is about to breach his or her duties.

Step 3 - Formalize Investment Policy

- There is detail to implement a specific investment strategy.
- The investment policy statement defines the duties and responsibilities of all parties involved.
- The investment policy statement defines diversification and rebalancing guidelines.
- The investment policy statement defines due diligence criteria for selecting investment options.
- The investment policy statement defines monitoring criteria for investment options and service vendors.
- The investment policy statement defines procedures for controlling and accounting for investment expenses.
- The investment policy statement defines appropriately structured, socially responsible investment strategies (when applicable).

INDUSTRY BEST PRACTICES

Rebalancing is inherent to the element of diversification, where the goal is to create a portfolio that balances appropriate levels of risk and return. That balance, once achieved, only can be maintained by periodically rebalancing the portfolio to maintain the appropriate diversification.

The rebalancing limits define the points when a portfolio should be reallocated to bring it back in line with the established asset allocation target. The discipline of rebalancing, in essence, controls risk and forces the portfolio to move along a predetermined course. It takes gains from stellar performers or favored asset classes, and reallocates them to lagging styles, without attempting to time the market.

Step 4 - Implement Policy

- The investment strategy is implemented in compliance with the required level of prudence.
- The fiduciary is following applicable “Safe Harbor” provisions (when elected).
- Investment vehicles are appropriate for the portfolio size.
- A due diligence process is followed in selecting service providers, including the custodian.

INDUSTRY BEST PRACTICE

Simply stated, an investment strategy can fail by being too conservative or too aggressive. A fiduciary could adopt a very safe investment strategy by keeping a portfolio in cash, but then see the portfolio’s purchasing power whither under inflation. Or, a fiduciary could implement a long-term growth strategy that overexposes a portfolio to equities, when a more conservative fixed-income strategy would have been sufficient to cover the identified goals and objectives.

Step 5 - Monitor and Supervise

- Periodic reports compare investment performance against an appropriate index, peer group, and IPS objectives.
- Periodic reviews are made of qualitative and/or organizational changes of investment decision-makers.
- Control procedures are in place to periodically review policies for best execution, soft dollars, and proxy voting.
- Fees for investment management are consistent with agreements and with the law.
- “Finder’s fees,” 12b-1 fees, or other forms of compensation that have been paid for asset placements are appropriately applied, utilized, and documented.

INDUSTRY BEST PRACTICE

The acronym **TREAT** helps define the key fiduciary inputs to the asset allocation strategy.

T Tax Status

R Risk Level

E Expected Return

A Asset Class Preference

T Time Horizon

We are currently performing step 5 of the investment process, in particular, performing rebalancing. The process of rebalancing of the portfolio realigns it back to the strategic asset allocation formalized in the IPS. The asset mix will change as a result of rising values in the portfolio. Rebalancing controls risk and force the portfolio to move along a predetermined course. It is through this overall procedural process that the Trust maintains its financial integrity.

INDUSTRY BEST PRACTICE

The fiduciary should establish performance objectives for each investment decision-maker, and/or money manager, and record the same in the investment policy statement. Investment performance should be evaluated in terms of an appropriate market index, and the relevant peer group.

The investment policy statement also should describe the actions to be taken when an investment decision-maker fails to meet the established criteria. The fiduciary should acknowledge that fluctuating rates of return characterize the securities markets, and may cause variations in performance. The fiduciary should evaluate performance from a long-term perspective, ordinarily defined as two-to-three years.

There often will be times when a money manager is beginning to exhibit shortfalls in the defined performance objectives but, in the opinion of the fiduciary, does not warrant termination. In such situations, the fiduciary should establish in the investment policy statement specific **Watch List** procedures. The decision to retain or terminate a manager cannot be made by a formula. It is the fiduciary's confidence in the money manager's ability to perform in the future that ultimately determines the retention of a money manager.

The references used in this section of the 2013 Annual Report were taken from the Prudent Investment Practices, A Handbook for Investment Fiduciaries, written and published by the Foundation for Fiduciary Studies, www.cfstudies.com, © 2003 Foundation for Fiduciary Studies.

Due to the technical nature of professional investing, the Board of Trustees and staff must maintain a level of proficiency in the technical concepts of investing and money management. The following are the money management activities and seminars attended in 2014.

PORTFOLIO INVESTMENT CONSULTANT
MORGAN STANLEY SMITH BARNEY (MSSB)

The Trustees solicit professional services for the management of its assets, the development and maintenance of a dynamic investment policy, the supervision and evaluation of investment managers, as well as auditing and asset custodial services.

The Money Managers, selected by the Trustees, have sole responsibility for

purchase and sale decisions for all investments under their control. Should any manager fail to meet the goals or stay within the guidelines of the Trust's investment policy, the trustees may initiate proceedings to determine the desirability of retaining the manager.

The Consultant is responsible for providing ongoing assistance to the Trustees in the supervision, retention and termination of the investment managers, the maintenance and updating of the investment policy, asset allocation decisions and other matters involving the investment of assets. From 1988 through 1994, Merrill Lynch acted as the Trust's investment consultant. Commencing March 1, 1995, Altamira Capital Corporation was retained to replace Merrill Lynch as investment consultant. On February 18, 2004 the Trust hired Morgan Stanley Smith Barney to replace Altamira Capital. MSSB is the current portfolio consultant.

The Custodian of the funds is responsible for safekeeping all securities and cash, accounting for all cash flow and providing monthly statements. Effective with the hiring of Morgan Stanley Smith Barney in February 2004, Smith Barney Citigroup became the custodian. Prior to this time, BNY Western Trust Company (a subsidiary of the Bank of New York) had been serving as custodian for all of the Trust's funds. The Board of Trustees has also retained seven discretionary money management firms to manage the Trust's investment portfolios – see above (stated at fair market value).

Report of Independent Auditors

Management and the Board of Trustees
Marianas Public Land Trust

Report on the Financial Statements

We have audited the accompanying statements of net position of the Marianas Public Land Trust (the Trust), a component unit of the Commonwealth of the Northern Mariana Islands, as of September 30, 2014 and 2013, and the related statements of revenues, expenses and changes in net position, and cash flows for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in conformity with U.S. generally accepted accounting principles; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free of material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the Marianas Public Land Trust as of September 30, 2014 and 2013, and the respective changes in financial position and where applicable, cash flows thereof, for the years then ended in conformity with U.S. generally accepted accounting principles.

Required Supplementary Information

U.S. generally accepted accounting principles require that the Management's Discussion and Analyses on pages 4 through 12 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board which considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary and Other Information

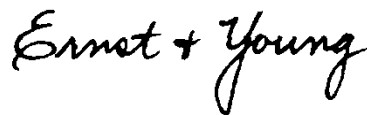

Our audit was conducted for the purpose of forming an opinion on the Marianas Public Land Trust's financial statements. The combining statement of net position, the combining statement of revenues, expenses and changes in net position, the combining statement of cash flows, the schedule of investments - general fund, the schedule of investments - park fund, and the schedule of administrative expenses compared to budget are presented for purposes of additional analysis and are not a required part of the basic financial statements.

Supplementary and Other Information, continued

The combining statement of net position, the combining statement of revenues, expenses and changes in net position, the combining statement of cash flows, the schedule of investments - general fund, the schedule of investments - park fund, and the schedule of administrative expenses compared to budget are the responsibility of management and were derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States. In our opinion, the supplementary information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we also have issued our report dated April 29, 2015 on our consideration of the Marianas Public Land Trust's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Marianas Public Land Trust's internal control over financial reporting and compliance.

April 29, 2015

MARIANAS PUBLIC LAND TRUST

COMMONWEALTH OF THE NORTHERN MARIANA ISLANDS

As management of the Marianas Public Land Trust (MPLT), we offer readers of MPLT's financial statements this narrative overview and analysis of the financial activities of MPLT for the year ended September 30, 2014. This Management's Discussion and Analysis should be read in conjunction with the audited financial statements.

Implementing Authority

The origins of MPLT are found in both the Constitution of the Commonwealth of the Northern Mariana Islands and Public Law (P.L.) 94-241, Covenant to Establish a Commonwealth of the Northern Mariana Islands in Political Union with the United States of America. Both of these documents came into full force and effect on January 9, 1978.

Article XI, Section 6 of the Constitution provides for the establishment of MPLT upon the effective date of the Constitution. Some excerpts pertaining to the operating requirements of MPLT are:

- "... The number of trustees appointed by the Governor with the advice and consent of the Senate shall be ...[five]. Three shall be from Saipan, one from Rota and one from Tinian. At least one trustee shall be a woman and at least one trustee shall be of Carolinian descent. The trustees shall serve for a term of six years ... [shall] be staggered."
- "... The trustees shall make reasonable, careful and prudent investments."
- "... The trustees shall ...[use] the interest on the amount received for the lease of property at Tanapag Harbor for the development and maintenance of a memorial park. The trustees shall transfer to the general revenues of the Commonwealth the remaining interest accrued ...[except] that the trustees may retain the amount necessary to meet reasonable expenses of administration."
- "... The trustees shall make an annual written report to the people of the Commonwealth accounting for the revenues received and expenses incurred by the Trust and describing the investments and other transactions authorized by the trustees."
- "... The trustees shall be held to strict standards of fiduciary care. Each trustee shall annually submit to the Governor and the presiding officers of the Legislature a report disclosing their financial affairs, as provided by law."

The Covenant contains key provisions, which are fundamental to MPLT's development. Article VIII, Section 802 requires that certain lands be made available to the United States Government by lease in order for it to carry out its defense responsibilities. These lands consist of 7,203 hectares on Tinian, 72 hectares at Tanapag Harbor in Saipan, and the entire island of Farallon de Medinilla.

Marianas Public Land Trust
(A Component Unit of the Commonwealth of the Northern Mariana Islands)

Management's Discussion and Analysis, continued

Implementing Authority, continued

Article VIII, Section 803 of the Covenant describes the lease terms for the above properties. The Commonwealth will lease the property to the United States for 50 years with the United States having the option of renewing the lease for all or part of the property for an additional term of 50 years. The United States will pay the Commonwealth, in full settlement of the two 50 year lease terms, the total sum of \$19,520,600 determined as follows:

- Tinian Island property - \$17.5 million;
- Saipan Island property located at Tanapag Harbor - \$2 million;
- Farallon de Medinilla Island - \$20,600.

The above sum will be adjusted by a percentage, which will be the same as the percentage change in the United States Department of Commerce composite price index from the date of signing the Covenant. Additional terms and conditions of this lease are found in the Technical Agreement Regarding Use of Land to Be Leased by the United States, which was executed simultaneously with the Covenant.

Furthermore, Section 803 provides for over 53 hectares of the leased property at Tanapag Harbor to be made available to the United States, at no cost to the Commonwealth, to establish an American Memorial Park to honor the American and Marianas dead in the World War II Marianas Campaign. The \$2 million received from the United States for the lease of this property would be placed into a trust fund with the "income" to be used for the development and maintenance of the park.

This was the initial source of the funding for MPLT, i.e., \$23,942,602 allocated to the MPLT General Fund and \$2,000,000 allocated to the MPLT Park Fund. In 1991, 2007, 2008 and 2012, additional distributions were received of \$1,000,000, \$1,250,000, \$3,500,000 and \$1,000,000, respectively, from the Marianas Public Land Corporation and its successors, including the Department of Public Lands. These amounts were treated as General Fund principal contributions.

Financial Highlights

The following financial highlights are taken from the audited financial statements for the years ended September 30, 2014, 2013 and 2012.

- The assets of MPLT increased in 2014 by \$3,710,975 over the amount at 2013. This was due to principal contributions of \$1,303,852 and due to a continuing trend of increasing fair value of investments.

(A Component Unit of the Commonwealth of the Northern Mariana Islands)

Management's Discussion and Analysis, continued

Financial Highlights, continued

The assets of MPLT increased in 2013 by \$859,120 over the amount at 2012. This increase in assets was due to a continuing trend of increasing fair value of investments.

The assets of MPLT increased in 2012 by \$5,942,187 over the amount at 2011. This increase in assets was due primarily to the increase in fair value of investments rebounding from the 2011 which showed an overall loss of value.

- Total liabilities for 2014 decreased by \$1,117,955 from 2013 due primarily to a decrease in the amount due to brokers, which is a function of security purchases that did not clear by year end.

Total liabilities for 2013 decreased by \$985,900 from 2012 due primarily to a decrease in the amount due to brokers, which is a function of security purchases that did not clear by year end.

Total liabilities for 2012 increased by \$278,251 from 2011 due to an increase of due to brokers resulting from a change in money managers and the sale of investments. This was offset somewhat due to the application of the amount due to the CNMI General Fund being applied as of year end. Accounts payable and accrued expenses did not change materially from the amount in 2011.

- The above changes resulted in an increase of \$4,828,930 in total net position for 2014, increase in total net position of \$1,845,020 for 2013, and an increase in total net position of \$5,663,936 for 2012.
- Total revenues of MPLT are a combination of (1) gains (losses) attributable to the valuation of investments plus (2) income earned on such investments. Total operating revenues for 2014, 2013, and 2012 were \$5,382,094, \$5,087,100 and \$7,630,783, respectively.
- The total performance of MPLT for 2014 was 6.9%, which did not exceed our target rate of return of 7.5%, for 2013 was 6.2%, and 2012 was 11.3%.
- The overall administrative costs increased in 2014 by 10% or \$76,642, decreased in 2013 by 1% or \$10,099, and decreased in 2012 by 11% or \$101,108 as there was a small impairment loss recognized.

Management's Discussion and Analysis, continued

MPLT General Fund Operations

The investment income for 2014, 2013, and 2012 was \$1,624,905, \$2,625,814, and \$2,942,976, respectively.

The distributions to the CNMI General Fund paid for 2014, 2013, and 2012 was \$844,111, \$1,908,543, and \$1,894,921, respectively. The cumulative amount distributed to the CNMI General Fund since inception in 1983 has been \$54,621,234. This has occurred while growing the principal fund by \$38,386,441 for the same time-period. The General Fund's annual return for 2014 was 6.82%, 2013 was 5.91%, and 2012 was 11.03%.

The loan made to the Northern Marianas Housing Corporation (NMHC) became un-performing when NMHC defaulted in 2007 when P. L. 10-29 and 12-27 was repealed per P.L. 15-48. MPLT negotiated a settlement agreement wherein \$2,025,000 was paid and the related loan portfolio was transferred to MPLT. MPLT is currently managing these loans and attempting to recover its \$8.9 million principal. Due to collection uncertainty for this investment, a write-down of value amounting to \$4,830,000 was recognized by MPLT as of September 30, 2014 (net current value of \$2,823,850).

Capital Assets

At September 30, 2014, 2013, and 2012, MPLT had \$286,621, \$322,814, and \$348,336, respectively, in capital assets, net of accumulated depreciation where applicable, including furniture, fixtures and equipment, vehicles and land, which represent a net decrease in 2014 of \$36,193, decrease in 2013 of \$25,522, and an increase in 2012 of \$138,592. See note 4 to the financial statements for more information on MPLT's capital assets.

Marianas Public Land Trust
(A Component Unit of the Commonwealth of the Northern Mariana Islands)

Management's Discussion and Analysis, continued

Goals and Objectives

It is the intent of MPLT to continue to monitor its investment portfolio to ensure an adequate risk-adjusted rate of return is achieved. This is the phase of the Five-Step Investment Management Process that MPLT is currently performing. This involves periodic rebalancing of the portfolio to comply with its asset allocation investment policy. Occasionally, the Trustees may find it necessary or desirable to add additional asset classes, which require amendment of its Investment Policy Statement. It is MPLT's fiduciary duty to continue to follow the well-established prudent investment management practices.

MPLT Park Fund Operations

The MPLT Park Fund is part of the overall trust fund but is separately managed and accounted for due to its funding source and a different beneficiary as compared to the MPLT General Fund. The Park Fund's annual return for 2014 was 8.36%, 2013 was 8.59%, and 2012 was 13.61%. The Park Fund has not suffered local investment losses as it only invests to benefit the American Memorial Park. As stated previously, the Park Fund received its principal funding from the lease proceeds of a portion of the Tinian - Tanapag Harbor - Farallon de Medinilla land lease revenues. The \$2,000,000 for the Tanapag Harbor in Saipan was dedicated to the formation of the American Memorial Park. The income on this principal contribution can only be used for the maintenance and development of the American Memorial Park (AMP). Accordingly, this initial principal contribution has been prudently managed since 1983 and has grown to \$9,000,717. This has been accomplished while distributing \$6,065,545 for AMP maintenance and development.

As part of a plan to make some of the principal available for development of the AMP, MPLT entered into a loan arrangement with the Commonwealth Development Authority on November 30, 2001 to lend them \$2,000,000 to be used with CIP funding grants in order to make the following additions and upgrades to the Park:

1. American Memorial Park Visitor/Cultural Center	\$1,305,200
2. American Memorial Park Marianas Memorial Garden	514,000
3. Remodel and Upgrade Amphitheater	1,310,800
4. Exhibit Design and Construction of Visitor Center	<u>870,000</u>
Total	<u>\$4,000,000</u>

This loan is to be repaid from future income realized on the Park Fund investments. As income is received, the principal portion of the payment will be taken from the income stream and transferred to principal and re-invested. The term of the loan is fifteen years at an annual rate of 6.5%. The monthly principal and interest payment will be about \$17,400. It is through this mechanism that MPLT has been able to benefit the Park and sustain new development.

Goals and Objectives

It is the intention of the Trustees to continue to provide financial assistance to the American Memorial Park in accordance with the terms of the Constitution and Covenant. It has been through MPLT's stewardship of the Park Fund assets that the developments in the AMP have occurred. The Trustees plan to continue this past record of achievement and use it as a basis for further enhancements of the facility, which benefits the Commonwealth as a whole. Currently, improvements are being made to the tennis court and surrounding areas.

Economic Outlook

MPLT suffered in 2008 its largest loss of principal since 2002. This was due to the World-wide credit collapse and resulting recession. 2009 began a recovery of investment values and fortunately, due to our investment discipline, MPLT has recovered from the 2008 losses and has been able to add value to the portfolio. The outlook for 2015 appears to be a tenuous year for economic growth. This will likely force the Federal Reserve to continue its stimulus program. If the Federal Reserve reduces its stimulus program, the financial markets are certain to suffer. There is also the potential for deflation. These factors will likely keep equity value growth muted. Also, the bond market would suffer as interest rates begin to increase. It will likely take many years before the U.S. experiences a booming economy once again. The Trust has a long term time horizon. Accordingly, the Trust is continuously reviewing options to its current investment allocation in order to manage its risk-adjusted yields. Accordingly, the Trust may be making changes to its asset classes, but the basic investment approach will remain the same.

Contacting the MPLT's Financial Management

This report is designed to provide the branches of the Commonwealth Government and the public at large with a general overview of MPLT's finances and to show MPLT's accountability for the money it manages. The Management's Discussion and Analysis for the year ended September 30, 2014 is set forth in the report on the audit of MPLT's financial statements, which is dated April 29, 2015. The Discussion and Analysis explains the major factors impacting the 2014 financial statements. If you have questions about this report or the 2013 or 2012 reports or need additional financial information, contact the MPLT office, P.O. Box 501089, Saipan, MP 96950 or phone at (670) 322-4401 or email mplt@mplt.gov.mp.

Marianas Public Land Trust
(A Component Unit of the Commonwealth of the Northern Mariana Islands)

Notes to Financial Statements

September 30, 2014 and 2013

1. Organization and Purpose

The Marianas Public Land Trust (MPLT), a component unit of the Commonwealth of the Northern Mariana Islands (CNMI), was formed on January 9, 1978, pursuant to the ratification and adoption of the Constitution of the CNMI, Covenant to Establish a Commonwealth of the Northern Mariana Islands in Political Union with the United States of America (the Covenant), and Technical Agreement Regarding Use of Land to be Leased by the United States in the Northern Mariana Islands.

MPLT did not become operational until May 17, 1983, when its Trustees were appointed by the Governor with confirmation by the Senate.

The purpose of MPLT is to manage all monies received by it from the CNMI Department of Public Lands (DPL) for the use of public lands. DPL has the responsibility to manage the public lands and distribute to MPLT all revenues net of reasonable administrative expenses.

MPLT's responsibility is to make reasonable, careful and prudent investments with respect to monies received from DPL. The Trustees have taken the position that their duty to the beneficiaries is not only to provide income to the general fund of the CNMI but also to preserve the principal of MPLT. As such, MPLT is currently allocating capital gains and losses on equity investments to principal fund balance. These capital gains and losses are not considered to be available for distribution to the general fund of the CNMI Government. Other forms of income on investments, after deduction of amounts necessary to meet reasonable administrative expenses, are distributed to the general fund of the CNMI Government.

MPLT is also responsible for carrying out the intention of Article VIII, Section 803(e) of the Covenant, by establishing a separate trust fund for the development and maintenance of an American Memorial Park. The Trustees allocate capital gains and losses on equity investments of this trust fund to the principal of the trust fund. Other forms of income on investments, after deduction of amounts necessary to meet reasonable administrative expenses, are to be used for the development and maintenance of the American Memorial Park.

Marianas Public Land Trust
(A Component Unit of the Commonwealth of the Northern Mariana Islands)

Notes to Financial Statements, continued

2. Summary of Significant Accounting Policies

The accounting policies of MPLT conform to accounting principles generally accepted in the United States, as applicable to governmental entities, specifically proprietary funds. Governmental Accounting Standard Board (GASB) Statement No. 20, *Accounting and Financial Reporting for Proprietary Funds and Other Governmental Entities that Use Proprietary Fund Accounting*, requires that proprietary activities apply all applicable GASB pronouncements as well as Statements and Interpretations issued by the Financial Accounting Standard Board (FASB), Accounting Principles Board Opinions, and Accounting Research Bulletins of the Committee on Accounting Procedures issued on or before November 30, 1989. MPLT has implemented GASB 20 and elected not to apply FASB Statements and Interpretations issued after November 30, 1989, except those that conflict with a GASB pronouncement.

Accounting Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Net Position

Net position represents the residual interest in MPLT's assets after liabilities are deducted and consist of the following:

- Invested in capital assets: capital assets, net of accumulated depreciation.
- Restricted: net position subject to externally imposed stipulations that can be fulfilled by actions pursuant to those stipulations or that expire by the passage of time. MPLT has net position restricted for principal and income.
- Unrestricted: net position that is not subject to externally imposed stipulations. As MPLT considers all assets except investments in capital assets, to be restricted, MPLT does not have unrestricted net position at September 30, 2014 and 2013.

Basis of Accounting

All proprietary funds are accounted for on a flow of economic resources measurement focus. With this measurement focus, all assets and liabilities associated with the operation of this fund are included on the statements of net position. Proprietary fund operating statements present increases (e.g. revenues) and decreases (e.g. expenses) in net position. The accrual basis of accounting is utilized for proprietary funds. Under this method, revenues are recorded when earned and expenses recorded at the time liabilities are incurred.

2. Summary of Significant Accounting Policies, continued

Concentrations of Credit Risk

Financial instruments which potentially subject MPLT to concentrations of credit risk consist principally of cash and cash equivalents, notes receivable and investments.

At September 30, 2014 and 2013, MPLT has cash deposits and investments in bank accounts that exceed federal depository insurance limits. MPLT has not experienced any losses in such accounts.

Cash and Cash Equivalents

For purposes of the statements of net position and cash flows, cash and cash equivalents includes all cash in banks and money market sweep deposits with initial maturities of ninety days or less.

At September 30, 2014 and 2013, cash and cash equivalents consisted of the following:

	<u>2014</u>	<u>2013</u>
Custodian money market sweep deposits	\$1,384,343	\$2,228,508
Deposits with federally insured banks	312,812	240,652
Uninsured deposits	<u>3,875</u>	<u>4,042</u>
	<u>\$1,701,030</u>	<u>\$2,473,202</u>

As of September 30, 2014 and 2013, custodian money market sweep deposits are held and administered by an investment manager subject to Securities Investor Protection Corporation (SIPC) insurance up to \$250, 000 with coverage in excess of SIPC provided by a supplemental insurance policy through certain underwriters with a per client aggregate limit of \$1.9 million.

CNMI law does not require component unit funds to be collateralized and thus MPLT's funds are uncollateralized. Accordingly, the deposits are exposed to custodial credit risk.

Investments

Credit risk for investments is the risk that an issuer or other counterparty to an investment will not fulfill its obligations.

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of debt instruments.

Marianas Public Land Trust
(A Component Unit of the Commonwealth of the Northern Mariana Islands)

Notes to Financial Statements, continued

2. Summary of Significant Accounting Policies, continued

Investments, continued

Concentration of credit risk for investments is the risk of loss attributed to the magnitude of an entity's investment in a single issuer. GASB Statement No. 40 requires disclosure by issuer and amount of investments in any one issuer that represents five percent (5%) or more of total investments for MPLT. As of September 30, 2014, MPLT's investment in U.S. agency obligations of the Freddie Mac Federal Home Loan Mortgage Corporation and Department of Treasury constituted 5% and 15%, respectively, of its total investments. As of September 30, 2013, MPLT's investment in U.S. agency obligations of the Freddie Mac Federal Home Loan Mortgage Corporation and Fannie Mae Federal National Mortgage Association constituted 5% and 7%, respectively, of its total investments.

MPLT has selected a custodian for both funds who shall maintain custody of all cash, securities and other assets of MPLT and shall credit interest and dividends on said securities and credit principal paid on called or matured securities of MPLT. The custodian shall provide, on a timely basis, a monthly statement of all assets, to include an accounting of all activities during that month. The investment held and administered by the investment manager is subject to SIPC of up to \$500,000 (inclusive of the \$250,000 cash balance protection coverage) and supplemental insurance for amounts in excess of SIPC coverage through certain underwriters, subject to an aggregate firm-wide cap of \$1 billion with no per client sublimit.

The Trustees may engage the services of an investment consultant after a competitive search process. The investment consultant chosen shall demonstrate professional experience of at least ten (10) years with exclusive focus on Institutional Management Consulting.

When evaluating potential Investment Management Consulting Firms, the Trustees will consider at a minimum the following criteria:

- Must be Registered Investment Advisor with exclusive focus on providing objective investment management consulting at an institutional level, having the support of a staff and/or organization, focused and experienced in consulting only;
- The candidate should be objective, free of conflict of interest and free to secure services from leading third party providers that will best suit the interest of MPLT;
- Firms must demonstrate experience in the breadth and depth of its professional staff;
- Ability to provide unbiased fiduciary and financial advice to public trusts;
- Knowledge of legislative, operational and legal aspects of the local public trusts;

Marianas Public Land Trust
(A Component Unit of the Commonwealth of the Northern Mariana Islands)

Notes to Financial Statements, continued

2. Summary of Significant Accounting Policies, continued

Investments, continued

- Ownership or ready access to relevant and comprehensive performance databases with proven and verifiable process for the institutional client;
- Ability to provide quantitative analysis of manager and total fund performance. In particular, attribution analysis to maintain the interests of the management styles and strategic asset allocation;
- Ability to provide on-going training;
- Firms must be recognized as having substantial experience in the institutional level investment management consulting field. Firms offering consulting as incidental to their securities business may not be considered; and
- May not be an investment manager with discretion over MPLT assets.

The Trustees have determined that the following investment policy will govern the investment of assets of MPLT:

- (i) The Trustees, with the assistance of the investment consultant, will select appropriate investment managers to manage MPLT assets. Investment managers must meet the following minimum criteria:
 1. Be a bank, insurance company, investment management company, or investment adviser as defined by the Registered Investment Advisers Act of 1940 or equivalent as might be determined appropriate by the Trustees;
 2. Provide historical quarterly performance numbers calculated on a time-weighted basis, based on a composite of all fully discretionary accounts of similar investment style, reported gross of fees;
 3. Provide performance evaluation reports prepared by an objective third party that illustrate the risk/return profile of the manager relative to other managers of comparable investment style;
 4. Provide detailed information on the history of the firm, key personnel, key clients, fee schedule, and support personnel;

Marianas Public Land Trust
(A Component Unit of the Commonwealth of the Northern Mariana Islands)

Notes to Financial Statements, continued

2. Summary of Significant Accounting Policies, continued

Investments, continued

5. Clearly articulate the investment strategy that will be followed and document that the strategy has been successfully adhered to over time; and
 6. Selected firms shall have no outstanding legal judgments or past judgments that may reflect negatively upon the firm.
- (ii) Every money manager selected to manage MPLT assets must adhere to the following guidelines:
1. The following securities and transactions are not authorized unless receiving prior Trustees' approval:
 - Letter stock and other unregistered securities, commodities or other commodity contracts, and short sales or margin transactions;
 - Securities lending, pledging or hypothecating securities; and
 - Investments in the equity securities of any company with a record of less than three years of continuous operation (including the operation of any predecessor) and investments for the purpose of exercising control of management are all restricted.
 2. Domestic Equities:
 - Equity holdings in any one company should not exceed more than 10% of the market value of MPLT's equity portfolio;
 - Investments in any one sector should not be excessive;
 - The manager may emphasize quality in security selection of the specific style hired to manage and may avoid risk of large loss through diversification within its mandated style;
 - The managers may have the discretion to invest a portion of the assets in cash reserves when they deem appropriate. However, the managers will be evaluated against their peers on the performance of the total funds under their direct management; and
 - Holdings of individuals securities may be large enough (round lots) for easy liquidation.

Marianas Public Land Trust
(A Component Unit of the Commonwealth of the Northern Mariana Islands)

Notes to Financial Statements, continued

2. Summary of Significant Accounting Policies, continued

Investments, continued

3. Convertible Securities:

- Convertible bonds and convertible preferred stocks are permissible holdings, but the preponderance of holding (75% plus) should be in bonds;
- Holding may be U.S. companies and non-U.S. companies, but the preponderance (75% plus) should be in U.S. companies;
- Convertible holdings in any one company should not exceed more than 10% of market value of MPLT's convertible portfolio;
- Investments in any one sector should not be excessive;
- The manager may emphasize quality in security selection of the specific style hired to manage and may avoid risk of large loss through diversification within its mandated style;
- The managers may have discretion to invest a portion of the assets in cash reserves when they deem appropriate. However, the managers will be evaluated against their peers on the performance of the total funds under their direct management; and
- Holdings of individual securities may be large enough (round lots) for easy liquidation.

4. Domestic Fixed Income:

- All fixed-income securities held in the portfolio may have a nationally recognized credit quality rating of no less than "BBB" from Moody's, Standard & Poor's and/or Fitch's. U.S. Treasury and U.S. government agencies, which are unrated securities, are qualified for inclusion in the portfolio;
- No more than 20% of the market value of the fixed income portfolio may be rated less than single "A" quality, unless the manager has specific written authorization; and
- The exposure of the portfolio to any other issuer, other than securities of the U.S. government or agencies, may not exceed 10% of the market value of the fixed income portfolio.

Marianas Public Land Trust
(A Component Unit of the Commonwealth of the Northern Mariana Islands)

Notes to Financial Statements, continued

2. Summary of Significant Accounting Policies, continued

Investments, continued

5. Diversified Local Investments:

MPLT establishes within the Domestic Fixed Income Asset Class a class for Diversified Local Investments (DLI). DLIs are those investments which originate from within the CNMI without regard to each island. The touchstone of classification within DLI is that investment vehicles in this class may be unique or specially targeted towards the CNMI economy or market.

As to this asset class, MPLT allocates no more than thirty percent (30%) of its asset portfolio. Once this maximum ceiling allocation is reached, there shall be an absolute moratorium on consideration of any further investments in this asset class until the percentage of allocation falls below ten percent (10%).

DLI refers to investments that are structured or designed to encourage a diversification of investments by MPLT within the CNMI. With DLIs, MPLT seeks to structure or consider investment vehicles which provide minimal rates of market return with attending corollary benefits. Such corollary benefits may include, but are not limited to, economic development, government stabilization or stimulus programs, affordable housing programs, and scholarships. In the DLI class, the MPLT Trustees may allow for a prudent rate of return where the corollary benefits provide an attending quantifiable return to the CNMI community, particularly to persons of Northern Marianas Descent or benefit persons of Northern Marianas Descent.

To be clear, MPLT does not warrant nor guarantee that it may favor investments in DLIs over more competitive investment vehicles, but only that MPLT may weigh the attending corollary benefits in determining whether to make such an investment. Expressed more emphatically, MPLT considers DLIs to be a rarely considered exception and every DLI proposal must be compelling as to its mission and purpose and beneficial in its scope and impact to the people of the CNMI. At all times full fiduciary prudence analysis and proper due diligence is required in both program development and shall be conducted on an investment-by-investment basis.

Marianas Public Land Trust
(A Component Unit of the Commonwealth of the Northern Mariana Islands)

Notes to Financial Statements, continued

2. Summary of Significant Accounting Policies, continued

Investments, continued

5. Diversified Local Investments, continued:

The MPLT Trustees recognize the importance of establishing a competitive risk-adjusted rate of return policy as part of consideration of a DLI. Every DLI proposal under consideration shall, as part of the investment analysis, identify the source of repayment of a fixed-income security such as a mortgage, surety bond, promissory note, or other security as primary consideration. Evaluating the credit-rating or the risk of the DLI or its proposer is also necessary. MPLT also anticipates that such DLI's may not be marketable so that an "illiquidity premium" should be recognized or considered and added to the risk-adjusted rate. MPLT may require that the risk-adjusted rate may be a floating rate to the appropriate pricing index and adjusted on a quarterly or semi-annual basis. MPLT may also impose a loan origination fee and assess charges for costs of administration at no less than 2% per annum, legal fees, travel/accommodations, and other necessary fees.

The following constitute the basic standards of review for investments by MPLT in DLI's which remain subject to the prudent investment standard and discretion of the MPLT Trustees:

- An opinion of legal counsel in standards of fiduciary care considering the prospective DLI and its terms under the applicable prudent investor standard;
- A thorough review and analysis by MPLT's financial consultant and/or investment manager as to the prospective DLI. The analysis shall examine all economic factors and address any potential or actual conflicts of interest for MPLT or its Trustees. The analysis shall also give primary attention to risk-adjusted market rates of return with particular attention as to whether the DLI involves a significantly greater than prudent financial risk of loss;
- Documentation of a complete submission of a proposed DLI meeting the requirements of a detailed business plan (if applicable);
- Every DLI shall be considered with respect to fiduciary prudence and without regard to political, social, or emotional factors with particular attention to the founding provisions guiding MPLT's creation: to remit interest income on investments to the General Fund;

Marianas Public Land Trust
(A Component Unit of the Commonwealth of the Northern Mariana Islands)

Notes to Financial Statements, continued

2. Summary of Significant Accounting Policies, continued

Investments, continued

5. Diversified Local Investments, continued:

- Trustees shall formulate and articulate the specific and detailed investment guidelines for investments under any prospective DLI for which MPLT may wish to solicit. Such guidelines shall include the mechanics of the administration of the DLI, the findings as to the social or economic corollary benefits to the CNMI as a whole, and the consistency or adherence with MPLT's mission;
- Each specific DLI may be evaluated against investments of a similar asset class; and
- MPLT may require additional conditions or impose additional terms for any DLI under consideration as part of its fiduciary analysis and no DLI may be approved until and unless it meets all the requirements imposed by MPLT.

6. International (Developed and Emerging Markets) Equities:

- Equity holding in any one company may not exceed more than 10% of the International Equity Portfolio;
- Investments in any one industry category should not be excessive;
- Allocations to any specific country may not be excessive relative to a broadly diversified international equity manager peer group. It is expected that the non-U.S. equity portfolio will have no more than 40% of its mandated style in any one country; and
- The manager may enter into foreign exchange contracts on currency, provided that use of such contracts is limited to hedging currency exposure existing within the manager's portfolio. There may be no direct foreign currency speculation or any related investment activity.

Marianas Public Land Trust
(A Component Unit of the Commonwealth of the Northern Mariana Islands)

Notes to Financial Statements, continued

2. Summary of Significant Accounting Policies, continued

Investments, continued

7. International (Developed and Emerging Markets) Fixed Income:

- Investments in a registered mutual fund may not be held to the same restrictions as set forth below for the respective asset classes. The Trustees instead will evaluate the risk and return merits of each mutual fund employing research as provided by third party service providers such as Consultant or Morningstar;
- Allocations to any specific country may not be excessive relative to a broadly diversified international fixed income manager peer group. It is expected that the non-U.S. fixed income portfolio will have no more than 40% of its mandated style in any one country; and
- The manager may enter into foreign exchange contracts on currency, provided that use of such contracts is limited to hedging currency exposure existing within the manager's portfolio. There may be no direct foreign currency speculation or any related investment activity.

8. Cash/Cash Equivalents:

- Cash equivalent reserves shall consist of cash instruments having a quality rating of A-1, P-1 or higher. Eurodollar Certificates of Deposits, time deposits, and repurchase agreements are also acceptable investment vehicles; and
- Idle cash not invested by the investment managers may be invested daily through an automatic interest-bearing sweep vehicle selected by the manager available and/or managed by the custodian.

Rebalancing of Strategic Allocation

The percentage allocation to each asset class may vary as much as approximately 10% depending upon the market conditions.

When necessary and/or available, cash flows will be distributed following the strategic asset allocation of MPLT. If there are no cash flows, the allocation of MPLT will be reviewed quarterly.

If the Trustees believe cash flows to be insufficient in bringing MPLT within the strategic allocation ranges, the Trustees may decide whether to effect transactions so that MPLT would fall within the allocated threshold ranges.

Marianas Public Land Trust
(A Component Unit of the Commonwealth of the Northern Mariana Islands)

Notes to Financial Statements, continued

2. Summary of Significant Accounting Policies, continued

Investments, continued

Frequency

In two instances, portfolio rebalancing will be necessary to remain within the target asset allocation ranges:

1. Cash Flow Requirements
2. Significant Market Action

Positive cash flows should be directed to the under-weighted asset class, while negative cash flows (disbursements) should be directed away from the over-weighted asset class. This procedure is likely to be fairly routine and predictable.

Significant Market Action requires immediate action to restore asset allocation. This is neither predictable nor routine.

Liquidity

The Board Consultant shall prepare anticipated expenditure requirements for each disbursement period and communicate these disbursement requirements to all affected managers with as much advance notice as possible. It is anticipated that MPLT's fixed income manager will be the initial and main conduit for contributions and disbursements. It is further anticipated that most of all such disbursements will be made from "income" generated from each account.

Marianas Public Land Trust
(A Component Unit of the Commonwealth of the Northern Mariana Islands)

Notes to Financial Statements, continued

2. Summary of Significant Accounting Policies, continued

Notes Receivable and Allowance for Loan Losses

Notes receivable are stated at the amount of unpaid principal, reduced by an allowance for loan losses. The allowance for loan losses is established through a provision for doubtful accounts charged to principal fund. Loans are charged against the allowance for loan losses when management believes that the collection of the principal is unlikely. The allowance is an amount that management believes will be adequate to absorb possible losses on existing loans that may be uncollectible, based on evaluations of the collectability of loans and prior loan loss experience. The evaluations take into consideration such factors as changes in the nature and volume of the loan portfolio, overall portfolio quality, review of specific problem loans and current economic conditions that may affect the borrowers' ability to pay. Write-offs against the allowance are based on the specific identification method.

Management cannot currently determine the effects of the potential foreclosure of collateralized properties associated with the loans. Accordingly, the allowance for loan losses included in the accompanying financial statements excludes the value of the possible recovery of certain loans through foreclosure.

Interest income on notes receivable is accrued based on the unpaid principal balance.

Foreclosed and Repossessed Assets

Foreclosed and repossessed assets are stated at lower of cost or fair value. Subsequent to foreclosure, valuations are periodically performed and the assets are carried at the lower of carrying amount or fair value less cost to sell.

Capital Assets

Capital assets are stated at cost. Depreciation is provided over the estimated useful lives of the assets through the use of the straight-line method and is charged to operations. Current policy is to capitalize items in excess of \$250.

Defined Contribution Plan (DC Plan)

On June 16, 2006, Public Law No. 15-13 was enacted which created the DC Plan, a multi-employer pension plan and is the single retirement program for all employees whose first time CNMI government employment commences on or after January 1, 2007. Each member of the DC Plan is required to contribute to the member's individual account an amount equal to 10% of member's compensation. MPLT is required to contribute to each member's individual account an amount equal to 4% of the member's compensation. MPLT's recorded DC contributions for the years ended September 30, 2014, 2013 and 2012 were \$3,922, \$3,631, and \$2,424, respectively, equal to the required contributions for each year.

(A Component Unit of the Commonwealth of the Northern Mariana Islands)

Notes to Financial Statements, continued

2. Summary of Significant Accounting Policies, continued

Defined Contribution Plan (DC Plan), continued

Members of the DC Plan, who have completed five years of government service, have a vested balance of 100% of both member and employer contributions plus any earnings thereon.

GASB Statement No. 45 requires employers to record other postemployment benefits (OPEB) expense for their contractually required contributions to the OPEB plan. MPLT has complied with GASB 45 by recording OPEB expense based on the statutory determined contribution rate of the Northern Mariana Islands Retirement Fund (the Fund). MPLT's OPEB liability is incorporated into the contribution amount. It is the understanding of the management of MPLT that the statutory determined contribution rate of the Fund incorporated both the pension liability and the OPEB liability. GASB 45 also requires detail disclosure of information related to the OPEB plan and MPLT management was unable to obtain this information from the Fund's financial report. MPLT management is unable to obtain the required disclosures and is of the opinion that such information must be obtained from the Fund. It is the position of the management of MPLT that the Fund is solely responsible for disclosure of OPEB information.

On August 30, 2012, Public Law 17-79 was enacted to amend Title I of the Commonwealth Code to include the intent of the CNMI to participate in the retirement insurance system established by Title II of the U.S. Federal Insurance Contributions Act (FICA) and for participation to be extended to elected officials, employees, political subdivisions and instrumentalities of the CNMI. On September 11, 2012, Public Law 17-82 *CNMI Pension Reform Recovery Act of 2012* was enacted. Unless specifically exempted or authorized by federal law, Public Law 17-82 provides for mandatory membership of CNMI Government employees and elected officials in the U.S. Social Security system and authorizes employees, who elect to, to buy quarters of service in the U.S. Social Security system from contributions made to the Defined Benefit plan (DB Plan). In addition, Public Law 17-82 provides active and inactive DB Plan members the option to voluntarily terminate membership in the DB Plan, withdraw or roll over contributions to the DC Plan and to participate in the U.S. Social Security system without termination of employment or penalty. Further, Public Law 17-82 allows the CNMI Government to continue remitting its 4% employer contribution to the DC Plan unless the employee ceases to contribute its employee share.

Operating and Non-Operating Revenue and Expenses

Operating revenue and expenses include all direct and administrative revenue and expenses associated with the investments.

Non-operating revenues and expenses result from capital and non-capital financing activities.

Marianas Public Land Trust

2. Summary of Significant Accounting Policies, continued

Recently Adopted Accounting Pronouncements

In March 2012, GASB issued Statement No. 65, *Items Previously Reported as Assets and Liabilities* (GASB No. 65). This Statement establishes accounting and financial reporting standards that reclassify, as deferred outflows of resources or deferred inflows of resources certain items that were previously reported as assets and liabilities and recognizes as outflows of resources or inflows of resources, certain items that were previously reported as assets and liabilities. The provisions of this Statement will improve financial reporting by clarifying the appropriate use of the financial statement elements deferred outflows of resources and deferred inflows of resources to ensure consistency in financial reporting. The requirements of this Statement are effective for financial statements for period beginning after December 15, 2012.

The implementation of GASB No. 65 did not impact MPLT's financial statements.

In March 2012, GASB issued Statement No. 66, *Technical Corrections - 2012, an amendment of GASB Statements No. 10 and No. 62*. This Statement amends Statement No. 10, *Accounting and Financial Reporting for Risk Financing and Related Insurance Issues*, by removing the provision that limits fund-based reporting of an entity's risk financing activities to the general fund and the internal service fund type. This Statement also amends Statement 62 by modifying the specific guidance on accounting for (1) operating lease payments that vary from a straightline basis, (2) the difference between the initial investment (purchase price) and the principal amount of a purchased loan or group of loans, and (3) servicing fees related to mortgage loans that are sold when the stated service fee rate differs significantly from a current (normal) servicing fee rate.

In June 2012, GASB issued Statement No. 67, *Financial Reporting for Pension Plans, an amendment of GASB Statement No. 25*. This Statement establishes financial reporting standards for state and local governmental pension plans, defined benefit pension plans and defined contribution pension plans, that are administered through trusts or equivalent arrangements that meet certain criteria.

In April 2013, GASB issued Statement No. 70, *Accounting and Financial Reporting for Nonexchange Financial Guarantees*. The objective of this Statement is to improve accounting and financial reporting by state and local governments that extend and receive nonexchange financial guarantees.

The implementation of the foregoing Statements did not have a material effect on the accompanying financial statements.

Upcoming Accounting Pronouncements

In June 2012, GASB issued Statement No. 68, *Accounting and Financial Reporting for Pensions, an amendment of GASB Statement No. 27*, effective for periods beginning after June 15, 2014. This Statement establishes accounting and financial reporting requirements related to pensions for governments whose employees are provided with pensions through pension plans that are covered by the scope of this Statement, as well as for nonemployer governments that have a legal obligation to contribute to those plans.

In January 2013, GASB issued Statement No. 69, *Government Combinations and Disposals of Government Operations*, effective for periods beginning after December 15, 2013. This Statement establishes accounting and financial reporting standards related to government combinations and disposals of government operations. In addition, this Statement provides specific accounting and financial reporting guidance for combinations in the governmental environment and also improves the decision usefulness of financial reporting by requiring that disclosures be made by governments about combination arrangements in which they engage and for disposals of government operations.

In November 2013, GASB issued Statement No. 71, *Pension Transition for Contributions Made Subsequent to Measurement Date*, an amendment of GASB Statement No. 68. The provisions of this Statement should be applied simultaneously with the provisions of GASB Statement No. 68, *Accounting and Financial Reporting for Pensions*. The objective of this Statement is to improve accounting and financial reporting by addressing an issue in Statement No. 68 concerning transition provisions related to certain pension contributions made to defined benefit pension plans prior to implementation of that Statement by employers and nonemployer contributing entities.

MPLT is currently evaluating the effects the above upcoming accounting pronouncements may have on its financial statements.

3. Notes Receivable

At September 30, 2014 and 2013, notes receivable consist of the following:

	<u>2014</u>	<u>2013</u>
Notes receivable (Home Loan Program) from various individuals obtained through a settlement agreement with the Northern Marianas Housing Corporation (NMHC) dated December 31, 2007, with interest at 2% (5.5% to 8.5% prior to January 1, 2009) and terms from ten to thirty years	\$7,653,850	\$ 8,087,313
Note receivable from Adelantun Publickun Luta Enteramente, Incorporated (APLE 501, Inc.), with interest at 5% per annum, due on October 18, 2017, with monthly principal and interest payments in the amount of \$1,225, and collateralized by a loan portfolio. Proceeds were used to fund an independently administered individual or parent-student loan program. MPLT has ceased future loan commitments and disbursements to APLE 501, Inc.	101,289	111,555
Note receivable from the Commonwealth Development Authority (CDA), with interest at 6.5% per annum, due on June 1, 2018, collateralized by future distributable net income for the maintenance and development of the American Memorial Park and is to be repaid from earnings of the investments pursuant to CNMI Public Law 11-72	695,343	831,943
Note receivable from the CNMI Government, with interest at 7% per annum. Public Law 17-7 earmarks and appropriates from future interest income distribution of fiscal years 2009 to 2013 and additional future fiscal years until the note is fully reimbursed. Interest is due annually	---	644,312

Credit Quality Indicators

MPLT uses several credit quality indicators to manage credit risk in an on-going manner. MPLT's primary credit quality indicators are based on the results of aging analysis. A monthly general provision is calculated based on the portfolio aging (current, 1-30 days, 31-60 days, 61-90 days, 91-120 days and 121+days). A specific reserve is provided for the net realizable value of the loans identified as uncollectable.

	<u>2014</u>
Current	\$ 6,736,098
1 - 30 days	651,474
31 - 60 days	256,355
61 - 90 days	134,235
91 - 120 days	191,290
More than 120 days	<u>3,481,030</u>
	<u>\$ 11,450,482</u>

Modifications

A modification of a loan constitutes a Troubled Debt Restructuring (TDR) when MPLT for economic or legal reasons related to a borrower's financial difficulties grants a concession to the borrower that it would not otherwise consider. MPLT offers various types of concessions when modifying a loan. Loans modified in a TDR involve reduction in regular monthly principal and interest payments and maturity term extensions to accommodate the borrower's financial needs for a period of time. As of September 30, 2014 loans that had been modified in a TDR totaled \$309,540 which was all modified during the year ended September 30, 2013.

4. Capital Assets

A summary of capital assets as of September 30, 2014 and 2013 is as follows:

	<u>Useful Lives</u>	<u>Balance at October 1, 2013</u>	<u>Additions</u>	<u>Deletions</u>	<u>Impairment</u>	<u>Balance September 30, 2014</u>

5. Net Position

In accordance with MPLT's accounting policies, gains and losses on investments are allocated to principal. In addition, a portion of transfers in from the CNMI government is specifically designated as an increase in principal. Movement in principal and interest accounts for the years ended September 30, 2014 and 2013 is summarized as follows:

	Principal	Interest	2014	2013
General Fund				
Balance at beginning of year	\$ 68,030,623	\$ ---	\$ 68,030,623	\$ 66,279,766
Net increase in the fair value of investments	2,902,822	---	2,902,822	1,236,201

Notes to Financial Statements, continued

6. Contributions To/From CNMI Government

In accordance with Article XI of the Constitution of the CNMI, MPLT makes operating transfers out to the CNMI general fund from investment income. During the years ended September 30, 2014 and 2013, MPLT recorded \$844,111 and \$1,908,543, respectively, of transfers out to the CNMI general fund, of which \$644,312 and \$1,741,534, respectively, was offset against a note receivable from the CNMI Government and \$45,102 and \$167,009 was used as offset against interest income receivable from the CNMI general fund. In addition, in accordance with Section 5 of Article XI, the CNMI Department of Public Lands transferred \$1,303,852 to MPLT during the year ended September 30, 2014.

In accordance with Article VIII, Section 803(e) of the Covenant, MPLT makes operating transfers out for the development and maintenance of the American Memorial Park. During the years ended September 30, 2014 and 2013, MPLT recorded \$143,411 and \$540,130, respectively, for transfers out for this purpose.

7. Risk Management

MPLT is exposed to various risk of loss related to torts, theft of, damage to, and destruction of assets, errors and omissions, injuries to employees, and natural disasters. MPLT has elected to purchase commercial insurance from independent third parties for the risks of losses to which it is exposed with respect to the use of motor vehicles. Settled claims have not exceeded this commercial insurance coverage during the past three years.

8. Related Parties

One trustee of MPLT has a home loan outstanding of \$57,625 and \$60,263 as of September 30, 2014 and 2013, respectively, and the legal counsel of MPLT has a home loan outstanding of \$47,450 and \$55,137 as of September 30, 2014 and 2013, respectively. The home loans were obtained from NMHC during the ordinary course of business and are classified as notes receivable in the accompanying financial statements. All of these loans predate the assumption of the portfolio by MPLT from NMHC.

As of September 30, 2014 and 2013, MPLT has receivables from its trustees and employees totaling \$24,802 and \$10,763, respectively, for cash and travel advances.

9. Commitment

In accordance with the addendum of memorandum of agreement between the CNMI and the U.S. Department of the Interior for development and management of the American Memorial Park, MPLT is obligated to contribute \$150,000 annually, to the extent of available income, for development and maintenance of the American Memorial Park.

Marianas Public Land Trust
(A Component Unit of the Commonwealth of the Northern Mariana Islands)

Notes to Financial Statements, continued

10. Contingency

In accordance with the Settlement Agreement with NMHC, MPLT guarantees Service Released Loans that were issued by financial institutions. At September 30, 2014 and 2013, MPLT was contingently liable to these institutions for \$880,587 and \$930,509, respectively. MPLT records liabilities upon receipt of default notices from NMHC.

Report of Independent Auditors on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards*

Management and the Board of Trustees
Marianas Public Land Trust

We have audited, in accordance with auditing standards generally accepted in the United States and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the Marianas Public Land Trust (the Trust), which comprise the statement of net position as of September 30, 2014, and the related statements of revenues, expenses and changes in net position, and cash flows for the year then ended, and the related notes to the financial statements, and have issued our report thereon dated April 29, 2015.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Trust's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Trust's internal control. Accordingly, we do not express an opinion on the effectiveness of Trust's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Trust's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the result of that testing, and not to provide an opinion on the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
